

Roosters Finds Success with Paycor

Markee Armentrout, Director of HR, Roosters

“It's been an amazing partnership over the past 3+ years. I appreciate all of my Paycor representatives and the efforts they put into assisting me.”

Organization Profile & Story

Bob and Corrine Frick hatched something special when the first Roosters opened in 1988. Between their passion for food and hospitality, the restaurant flourished, and more location opened across the east coast. But as they grew, the owners noticed more challenges. For example, managing taxes can get tricky while operating in multiple states and the competition for great talent was aggressive. **Prior to Paycor, Roosters was in partnership with another HR & payroll provider for 20 years, but their lack of professionalism and customer service ultimately convinced them to look at other options.** That's when Roosters invited Paycor to the table.

Challenges

- Lack of trust in payroll & HR provider
- Freeing up managers' time from administration tasks
- Slow, paper heavy onboarding process
- Recruiting & retaining employees

Solutions & Key Features

- Unified System of Record
- Employee Self-Service
- Stress free ACA and Tax Compliance
- Powerful, Applicant Tracking System
- Best-in-class Onboarding Solution

Today, more than 30,000 medium and small businesses trust Paycor to manage their most valuable asset – their people. With values such as putting the client first and doing the right thing, it's no wonder Roosters chose Paycor as their preferred HR and payroll provider.

Prior to Paycor

Prior to Paycor, Roosters' HR technology was more of a burden than a solution. On top of glitchy software, poor customer service was a serious issue for the family owned business. HR managers were constantly overwhelmed by administrative tasks that took time away from running their restaurant.

After Paycor

Roosters now utilizes a completely unified HR platform that meets the needs of their growing business. From recruiting top talent to onboarding new hires and managing labor costs, HR managers can now focus on what really matters – their customers.

Roosters leverages Paycor's unified HCM platform to recruit, onboard, manage and pay their people.

- Applicant Tracking
- Onboarding
- ACA
- HR
- Payroll

“This year we launched each one of these products successfully, which has allowed us to work smarter, not harder!”

– Markee Armentrout,
Director of HR, Roosters
