

Premier Parks Streamlines HR Processes and Boosts Employee Engagement

Alex Strickland, HR Director

“Paycor Recruiting integrates so well with all the job boards we use. It’s easy to get our jobs out there.”

Prior to Paycor

Before Paycor, Premier Parks **faced several major challenges with their HR processes**. They were using multiple different systems for various HR functions, including learning management, benefits administration, and payroll. **This lack of integration led to inefficiencies, increased administrative burden, and a disjointed experience** for both HR administrators and park employees.

Partnership with Paycor

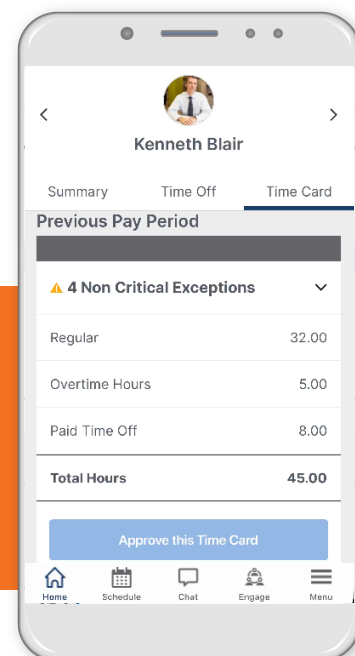

By partnering with Paycor, Premier Parks was **able to consolidate their HR functions into a single, integrated platform**. This streamlined approach has **improved efficiency, reduced manual effort, and enhanced the employee experience**. Paycor’s mobile app and on-demand pay features have been particularly beneficial for their large seasonal workforce.
