

Miami Dolphins Transforms HR Operations to Support 2,500 Employees

Chris Clements, CFO

“The premium support and the concierge service that we get from Paycor has been exceptional. If we have an issue, it's usually resolved within hours.”

Prior to Paycor

Before Paycor, Miami Dolphins managed their 2,500 employees across multiple disconnected systems for recruiting, onboarding, and payroll. **The lack of integration required manual data transfers that were time-consuming and error prone.**

Between the outdated, clunky interfaces of **their previous provider and support response times of days or weeks**, the organization struggled to efficiently manage their highly complex, event-driven workforce.

Partnership with Paycor

By partnering with Paycor, **Miami Dolphins consolidated all its HR functions into one integrated platform. The seamless flow from recruiting through onboarding to payroll eliminated manual data entry and reduced errors.** Premium support with dedicated account management provides resolution in hours instead of weeks, enabling the organization to efficiently manage events from game day and Formula One to major concerts and the World Cup.

Challenges

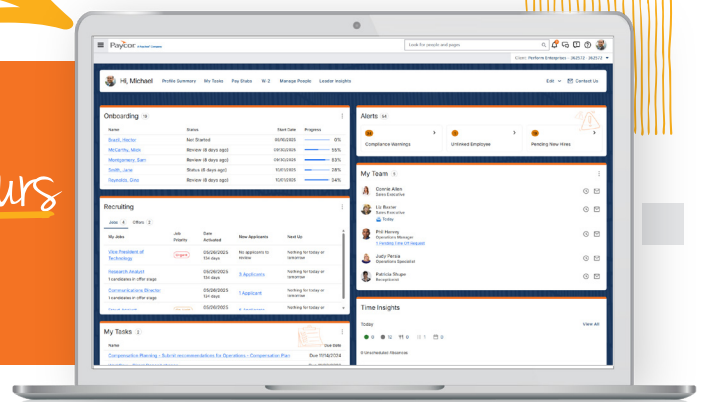

- Disconnected, siloed systems
- Time-consuming manual data entry and transfers
- Outdated, clunky user interface hampered productivity
- Slow support response times

Solutions & Key Features

- Integrated all-in-one platform
- Seamless recruiting-to-payroll flow
- Modern, intuitive interface and custom reports and analytics
