

Everything HR Needs to Know About BenefitsMe

Here's how it works and why it matters.

The Basics

What is BenefitsMe?

BenefitsMe is an **employee purchasing assistance program** that lets your employees buy brand-name items they need today and pay over time. It's interest-free, through simple payroll deductions spread across 3-12 months. It's not a loan, credit card, or discount program. Instead, we are a modern voluntary benefit that employees actually use and appreciate.

How It Works

How do employees purchase and pay?

Employees will log into BenefitsMe through their Paycor Perks SSO and gain instant access to a personalized spending limit of up to \$5,000 to shop for the products they need, when they need them. The products ship directly to their house. Payments are spread out over 3-12 months with interest-free installments, and deducted directly from their paycheck.

Employer Impact

What does it cost my company? What happens if an employee leaves?

Absolutely nothing. BenefitsMe is a zero-cost, zero-risk benefit. You don't pay admin fees. If an employee leaves, BenefitsMe takes responsibility for payment directly with them. Your team doesn't have to get involved.

Copyright © 2025 All Rights Reserved | BenefitsMe

Who Can Participate?

ALL your employees have access to BenefitsMe, both full-time and part-time, immediately from date of hire. We are built on being accessible to everyone. No credit history required.

What Can Employees Buy?

Over 70,000 brand-name products including: travel bookings, electronics, furniture, appliances, and more.

What Sets Us Apart

How is this different from other voluntary benefits?

Most payroll-deducted benefits provide insurance or services like identity theft protection or pet coverage. **BenefitsMe is different:** All employees can enroll anytime throughout the year and gain direct access to real, brand-name items they may not be able to afford upfront, but need now.

No loans. No confusing interest rates. No credit required. Just simple, affordable access to items through payroll deduction.
